Portable Hardness Testing

Carpenter Brothers, Inc. is pleased to represent Proceq and its line of portable hardness testing devices.

All Proceq portable hardness testing equipment provides:

- Labor Savings- the unit can pay for itself in reduced time & labor
- Accuracy- especially over units which require visual measuring of indentation
- Safety- no need to lift or move heavy parts

Equotip 3 is the top of the line portable hardness testing device:

- Hardness reading in any direction
- Converts to all common hardness scales (HV, HB, HRC, HRB, HRA, HS, Rm)
- Portable- moves easily from place to place on the shop floor
- Able to download to a computer spreadsheet

Piccolo is a compact version of the Equotip 3 with only the necessary options:

- Portable
- Able to download to a computer spreadsheet
- Converts to any hardness scale (HV, HB, HRC, HRB, HS, Rm)
- Li-Ion battery

Bambino is designed for on the floor or in the field accuracy:

- Portable
- Converts to any hardness scale (HV, HB, HRC, HRB, HS)
- Not able to download to a computer spreadsheet
- Most economic version

Please contact Carpenter Brothers, Inc. for more information or pricing.
