Carpenter Brothers part #  
1285-0001

Model "A" Sprayers are our most industrial line of sprayers. They feature metal construction, brass nozzles, and corrosion resistant internal working parts. All Model "A" Sprayers have a 32 oz. liquid capacity. Model "A" Sprayers are available in either steel or brass canisters, and offer your choice of a powder coated epoxy or chrome plated exterior finish. Steel sprayers can be used with oil and solvent based materials, and brass sprayers can be used with water based materials. Partial and complete repair kits are available, as well as a variety of nozzles and extensions. After filling, the Sure Shot sprayer is charged with shop air (max 180 PSI for best spray).

Model "A" One Quart Capacity Steel Sprayer comes with multi purpose nozzle. Nozzle is set for regular mist.

Please contact Carpenter Brothers, Inc. for more information and pricing.
